PROJECTS

Car Selling Website

- Developed a dynamic multi-page car website showcasing a diverse range of vehicles, providing users with an immersive and engaging experience.
- Utilized HTML5 and CSS3 to structure and style the website, focusing on creating an intuitive user interface and seamless navigation.
- Integrated JavaScript to enhance user interactions, incorporating features such as dynamic car filtering, image sliders, and form validation.
- Implemented responsive web design principles to ensure optimal viewing across various devices, enhancing user accessibility.

Education/ School Website   **https://education-website-omega.vercel.app/**

- Developed a comprehensive multi-page Education/School website using HTML, CSS, and JavaScript, providing a user-friendly platform for students, parents, and educators.
- Utilized HTML5 and CSS3 to structure and style the website, emphasizing clean and intuitive interfaces for seamless navigation.
- Integrated dynamic features with JavaScript, such as interactive class schedules, event calendars, and real-time updates to enhance user engagement.
